Career Objective

Enthusiastic and self-motivated frontend developer with a strong foundation in HTML, CSS, JavaScript, and Bootstrap. Passionate about building clean, responsive, and user-friendly web interfaces. Seeking entry-level opportunities and internships in web development or IT to apply my technical skills on real-world projects. Committed to continuous learning and professional growth, with a long-term goal of contributing to a dynamic tech company and advancing in software development.

Projects

Travel & Tours Website

Personal Project

Technologies: HTML5 | CSS3 | Bootstrap 5 | JavaScript | Visual Studio Code

- Developed a fully responsive travel and tourism website with multiple pages including Home, About Us, Gallery, and Contact Us.
- Designed destination cards, holiday package pricing sections, and a hero section with travel banners to deliver an engaging user experience.
- Implemented a responsive navigation bar and mobile-friendly layout, ensuring seamless performance across all screen sizes and devices.
- Built a Gallery page with organized travel images and a Contact page with clearly structured contact information and quick-link footer.
